

# Environmental Education Standard

Grade Level: 1

Standards: A-4.1 - 4.3, B. 4.5 - 4.6: Students will make predictions, record observations, and draw conclusions about their outside world; students will identify and distinguish between natural and human made environments and how organisms adapt to those environments.

Activity Example: Surprise Terrarium: Students will identify camouflage as an example of adaptation, and describe the importance of adaptations to the animals.
